Subject: ASM-HEMT GaN SPICE Model Annual Support

To Whom it May Concern,

Silicon Integration Initiative Inc., Si2, on behalf of our Compact Model Coalition (CMC), awards gift funds to Dr. Sourabh Khandelwal for research, development, and support of ASM-HEMT GaN SPICE model. This gift funding is awarded every year and is disbursed in two parts. Over the past three years, \$US 73,500 (for 2018), \$US 71,700 (for 2019), and \$US 73,900 (for 2020) were gifted in the support of the ASM-HEMT model, previously split between two universities. The amount budgeted for 2021, to be entirely awarded to Dr. Khandelwal and Macquarie University, is \$US 70,800.

Si2, on behalf of CMC, intends to continue supporting Dr. Sourabh Khandelwal's standardization of and research for ASM-HEMT model development with gift funds for a foreseeable future. CMC has supported similar, globally leading researchers for over 25 years. The gift amount for each model supported each year is subject to Si2 members and their interests. Based on past experience, the annual gift amounts are expected to be between \$US 70K and \$US 75K.

Kind regards,
